Sub-sub-section

Just write text.

Introduction

This report was rendered on 2024-03-15.

This report uses the **tidyverse** package along with the *SAFI* dataset which has columns that include:

- village
 - Name of village
- interview_date
 - Date of interview
 - * another detail
- no_members
- years_liv
- respondent_wall_type

These are my favourite:

1. village
2. rooms

3. meals thing
4. some other column

Results

Here is a table [Table 1](#)

Table 1: Caption

Village	Member Association	Mean number of Members
Chirodzo	no	8.062500
Chirodzo	yes	7.818182
God	no	7.133333
God	yes	8.000000
Ruaca	no	7.178571
Ruaca	yes	9.500000
